# Overview

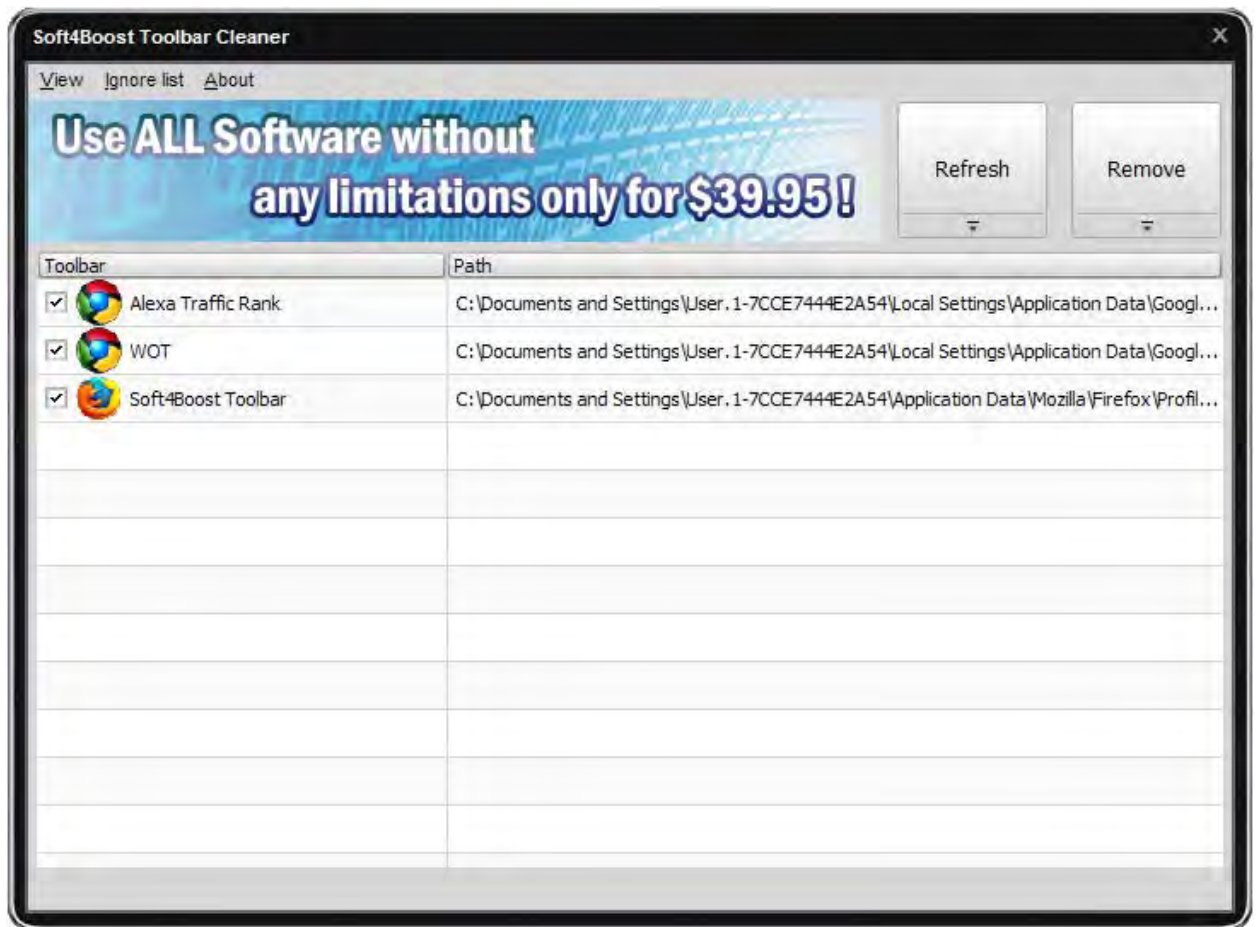

**Soft4Boost Toolbar Cleaner** is an easy-to-use program to remove toolbars that are installed on your browser. It offers support for Internet Explorer, Mozilla Firefox and Google Chrome.

**Soft4Boost Toolbar Cleaner** allows you to remove almost any toolbar and BHO without any problems.

To start **Soft4Boost Toolbar Cleaner** go to **Start** menu and choose **All Programs -> Soft4Boost -> Toolbar Cleaner -> Toolbar Cleaner**

# Program Interface

**Soft4Boost Toolbar Cleaner** interface is quite simple to use and lets the user perform all the actions with a few mouse clicks. The program **Main Window** looks the following way:

The **Central Area** initially contains the list of available toolbars.

**Main Menu** – allows to change current skin, view **About** this program and go to the **Support** and **Home** pages, view to **Ignore List**, which contained exceptions of scanning toolbars.

**Refresh** – click to this button and the searching process of installed toolbars will started.

**Remove** – click to this button and the removing process of selected toolbars will started.

# Ignore List

The **Ignore List** contains those toolbars which are excluded from scanning process.
